

# AL6000 SERIES

THE ULTIMATE INSIDE PLATFORM LIFT

4 self-tensioning  
Q'Straint retractors  
(optional on AL6000  
and AL6000HD)

## KEEPING IT INSIDE

The AL6000 and AL6000HD are ideal for transporting your valuable mobility device inside your vehicle, protected from the harsh elements. This hybrid powerhouse features sliding aluminum rails for smooth performance and increased load capacity. And despite its compact stowed dimensions, the lift features a 36" vertical travel from the cargo area to the ground and is remote control operated.

In many cases, the AL6000 or AL6000HD can be installed on existing vehicle hardware (for the third-row seating).

Designed for high-capacity, intelligent installation, and wide-ranging loading distances, the AL6000 series is the premier choice for carrying a mobility device inside vans and SUVs.

# EASY ON, EASY OFF ACCESS

## AL6000 SERIES

*The AL6000HD was the perfect solution. Keeping my power chair protected from the elements during transport was very important to us. And the hold-down arm makes it easy for us to use!*
